***Grimanesa Amorós:
Breathless Maiden Lane***

**Opening Reception
Wednesday, March 26th
7 – 9pm**

**125 Maiden Lane
New York, NY 10038**

Time Equities Inc. Art-in-Buildings is pleased to announce the newest exhibition in the lobby of 125 Maiden Lane, *Grimanesa Amorós: Breathless Maiden Lane*.

Grimanesa Amorós is a multidisciplinary artist whose practice incorporates elements from sculpture, video, sound art and cutting edge technology to create site-responsive installations that engage architecture and create community.

Breathless Maiden Lane explores and reveals the atrium’s architecture of 125 Maiden Lane, a glass, marble and granite space in New York’s Financial District. This is Amorós’ latest sculpture from her newest body of work utilizing LED lights in combination with diffusive material and her signature “bubble” sculptures. Originally from Lima, Peru, Amorós draws from the distinctive Peruvian culture and landscape in her work. The bubbles recall the man-made islands floating on the surface of Lake Titicaca and the long lines of LED tubing allude to distinctive reeds that grow in northern Peru.

Amorós suspended *Breathless Maiden Lane* in the middle of the atrium, hovering above the ground as if weightless. Although the work appears to defy gravity, a structural grid, designed to echo the building’s monumental windows, stands against the back wall of the atrium. This structure serves as the work’s spine, supporting the bubble sculptures and graceful LED lines. The lines stretch from the bubbles and structure to explore the architecture of the atrium in undulating loops. Some lines touch the window panes as if grasping for the street. The result is a

marvelous tangle of coils, swirls and arcs. A dynamic pattern activates the LEDs, in four shades of white and a golden yellow, giving the work an ethereal quality. At night, reflections from *Breathless Maiden Lane* bounce off the high shine marble walls, stainless steel ceiling and windows to create an immersive environment of reflections on an endless feedback loop.

Amorós researches the sites, histories and communities of any installation site; however her process remains organic and instinctive. This intuitive relationship to technology is a distinctive feature of Amorós' practice. Some elements must be planned and programmed but others, such as the exact placement of the lines of lights, come to Amorós while she installs. In this sense, the technology does not determine but complements the aesthetics of her work. The glittering lights are undeniably spectacular, but it is the subtle nuances -- the cadence of the custom lighting sequence revealing itself like a musical score -- that compels continued and focused viewing.

Amorós has exhibited internationally in the United States, Europe, Asia and Latin America, and is the recipient of several grants, including the National Endowment for the Arts Visual Artist Fellowship (Washington, DC), The Travel Grant Fund for Artists, NEA Arts International (New York, NY), and The Bronx Museum for the Arts: Aim Program (Bronx, NY), among many others.

Grimanesa Amorós: Breathless Maiden Lane is curated by Jennie Lamensdorf and sponsored by the Time Equities Inc. (TEI) Art-in-Buildings. TEI is committed to enriching the experience of our properties through the Art-in-Buildings Program, an innovative approach that brings contemporary art by emerging and mid-career artists to non-traditional exhibition spaces in the interest of promoting artists, expanding the audience for art, and creating a more interesting environment for our building occupants, residents, and their guests.

Founded in 1966, privately-held Time Equities Inc. has been in the real estate investment, development and asset & property management business for more than 40 years. With properties in 26 states, four Canadian provinces and Germany, the TEI portfolio consists of approximately 23.4 million square feet of residential, industrial, office and retail property.
